

# PARIS SOF-CMC conference Fall 2022 Program

## Thursday October 20, 2022

09:00 – 10:30 Registration / Industrial exhibition

10:30 – 11:00 Opening lectures

+ sign in for workshops 09:00 – 12:30

11:00 – 12:30 Session

Session 1 Other bricks in the wall of SOF medical support Moderation Dr Josse, Prof Pasquier

- Initial medical response to massive casualty incidents in the SOF environment. *Shackelford S* [20' including discussion]
- Prehospital blood transfusion in austere setting: from proof of concept to fine tuning. *Ausset S* [20' including discussion]
- Transformational change in combat casualty care research for the SOF. *Cap A* [20' including discussion]
- The UK point of view for the future of SOF medical support. *Hodgetts T* [20' including discussion]

12:30 – 14:00 Finger lunch / Industrial exhibition

14:00 – 16:00 Sessions & Workshops

Session 2A' Airway management Moderation Prof Meaudre

- Intubation and positive pressure ventilation in patients with hemorrhagic shock. *Stranden G* [25' including discussion]
- Surgical management of airway in SOF setting. *Morvan JB* [20' including discussion]

Session 2A'' Analgesia & sedation Moderation Prof Meaudre

- Analgesia and Sedation for Tactical Combat Casualty Care: TCCC Proposed Change 21-02. *Gurney J* [25' including discussion]
- War-wounded analgesia. *Corcostegui SP* [20' including discussion]
- Use of intranasal ketamine for prehospital analgesia in SOF: case series. *Dubecq C* [20' including discussion]

Session 2B Bleeding Prof Martinaud

- The future of blood transfusion in austere setting. *Martinaud C* [25' including discussion]
- Use of REBOA in the SOF setting. *Boddaert G* [25' including discussion]
- Evaluation of hemostatic capacities among commando candidates: Would their blood suit a hemorrhagic war-injured patient in case of blood donation on the battlefield? *Daniel Y* [25' including discussion]
- Fresh Whole Blood transfusion in Police Special Operations Teams: a perspective to reduce combat deaths in tactical austere environment in Brazil. *Braga da Silva T* [25' including discussion]

Workshops W1 TBI management. ZOLL™

Workshops W2 Stop the bleed. SAM MEDICAL™

Workshops W3 A Rapid Triage - wearable enhanced casualty monitoring. BLACK SPACE TECHNOLOGY™

16:00 – 16:45 Coffee break + Industrial exhibition

16:45 – 18:30 Sessions & Workshops

Session 3A Damage control resuscitation and surgery in SOF environment Moderation Prof Boddaert

- Deployment of the Surgical Life-saving Module (SLM) in 2017: lessons learned in setting up and training operational surgical units. *Malgras B* [25' including discussion]
- Ruck for surgery. *de Schoutheete JC* [25' including discussion]
- The French aeromedical special operations forces – damage control resuscitation and surgery team. *Cotte J* [25' including discussion]

Session 3B In the air Moderation Prof Boutonnet

- In flight damage control resuscitation. *Viard T* [25' including discussion]
- In flight damage control surgery. *Hornez E* [25' including discussion]
- In flight critical care during strategical aeromedical evacuation of SOF casualties. *Boutonnet M* [25' including discussion]

Workshops W4 The science behind Celox®. MEDTRADE™

Workshops W5 High fidelity surgical simulation P4P "Pulse for Practice". SIMEDYS™

Workshops W6 Advanced medical post in high mobility conditions. UTILIS™

18:30 – 21:00 Icebreaker - at the École du Val-de-Grâce

## Friday October 21, 2022

**08:30 – 09:00** Coffee break + Industrial Exhibition

**09:00 – 10:30** Sessions & Workshops

Session 4A Think & Do Moderation Dr Vacher

- Human factors in critical situations. *Vacher A [25' including discussion]*
- Mental training for stressful situations. *Ramon F webconf [25' including discussion]*
- D-STRESS use of virtual reality to detect post-traumatic stress disorder. *Levy F [25' including discussion]*

Session 4B Special environments Moderation Prof Leclerc

- Heat stroke. *Gasc T [25' including discussion]*
- Medical support in (very) cold conditions. *Bauvent Y [25' including discussion]*
- Medical support of prolonged subaquatic operations. *Chery M [25' including discussion]*

Workshops W7 How to prepare my medical backpack?

- Medical backpack for subaquatic operations. *Le Bail A*
- Medical backpack for airborne operations. *Hus G*
- Medical backpack for long pedestrian infiltrations. *Soumille B*
- Tactical CBNR first aid kit. *Queguiner S*

Workshops W8 Tactical and Prolonged Field Care High Fidelity Simulation and Training Platform. TACMED SOLUTIONS™

Workshops W9 Management patient in the battlefield. INMANIBUSMEIS™

**10:30 – 11:15**

Coffee break + Industrial Exhibition

Demonstration of the French aeromedical SOF – damage control resuscitation and surgery team

**11:15 – 12:45** Sessions & Workshops

Session 5A SOF physical constraints Moderation Dr Dubecq

- Havresac syndrome. *Bécheau A [20' including discussion]*
- Medical support of high-altitude military parachuting. *Morand G webconf [20' including discussion]*
- Injuries in SOF airborne operations: a 5-years analysis. *Carbonnel N [20' including discussion]*
- Basic nutritional considerations for SOF operators. *Bertrand M [20' including discussion]*

Session 5B Threats and Hazards Moderation Prof Leclerc

- Cumulative blast exposure estimate model for SOF operators. *A Crabtree/ McEvoy C [25' including discussion]*
- Prehospital Burns. *De Mello W [25' including discussion]*
- The CBNR chain of survival and its mnemonic device “I AM THOR”, a new cognitive tool to teach initial measures in undertaking a CBRN event on the battlefield. *Daniel Y [25' including discussion]*

Workshops W10 Prolonged field care or far forward resuscitation. PROMOTEQ AB™

Workshops W11 EZIO intraosseous. TELEFLEX™

Workshops W12 Demonstration of the French aeromedical SOF – damage control resuscitation and surgery team.

**12:45 – 14:00** Mange-debout / Industrial exhibition

**14:00 – 15:30** Sessions & Workshops

Session 6A SOF combat casualties Moderation Prof Wey & Prof David

- Treating Ukraine's wounded civilians, I saw horror and hope. *Attar S [20' including discussion]*
- Killed In Action (KIA): How Golden are 60 minutes? *Webster S [20' including discussion]*
- SOF casualties during counter-terrorism operations. *Courjon F / Travers S [20' including discussion]*
- UKR Report from the Field: TCCC in the multidomain battlespace. *Quinn J [20' including discussion]*

Session 6B Prolonged field care Moderation Dr Haar & Prof Hornez

- Point-of-care ultrasound for triage in austere military environments. *Dubecq C [25' including discussion]*
- Prolonged Field Care Update *O'Kelly A [25' including discussion]*
- Tactical Medicine in SOF teams, a 20-year experience in modern warfare inside Rio de Janeiro. *L Castro [25' including discussion]*

Workshops W13 Medics' points of view

- Improvised ground evacuation of SOF casualties. *Quilez T*
- Training and continuing education of French SOF nurses. *Fauchon X*
- Use of telemedicine for remote device. *Merlo T*

Workshops W14 REBOA in an austere setting. PRYTIME MEDICAL™

Workshops W15 Innovative versatile compact warmers. CORBEN™

**15:30 – 16:30** Meet the experts round tables / Industrial exhibition

**16:30 – 17:00** Summary and conclusion

**17:00- 18:00, and Saturday Oct 22, 2022**

**Free invitation to the Musée de l'armée for the exposition “30 ans des forces spéciales”**
