

PARIS SOF-CMC Conference Fall 2022 **Workshops**

**Registration for the workshops takes place via lists at the indicated booth on the overview plan.
Please sign up for the workshop lists by 12:30 p.m.**

Thursday October 20, 2022

14:00 – 16:00 Workshops

Workshops W1 TBI management.

TBI patient & data transmission during prolonged field care

ZOLL™

Workshops W2 Stop the bleed.

Demonstration of products for field bleeding control. The SAM XT, Extremity Tourniquet, ChitoSAM, Hemostatic Agent, as main focus.

Practical part: wound packing and tourniquet application

SAM MEDICAL™

Workshops W3 A Rapid Triage - wearable enhanced casualty monitoring.

Rapid Triage – Demonstrate wearable, integrated vital sign monitoring.

Using technology to enhance force protection and medical force multiplication:

‘One device - multiple scenarios’.

BLACK SPACE TECHNOLOGY™

16:45 – 18:30 Workshops

Workshops W4 The science behind Celox®.

Practical session demonstrating correct wound packing technique utilising Celox.

Learning outcomes;

1. Improve wound packing technique
2. Increased awareness of Celox mode of action

MEDTRADE™

Workshops W5 High fidelity surgical simulation P4P “Pulse for Practice”.

Increased awareness of Celox mode of action

SIMEDYS™

Workshops W6 Advanced medical post in high mobility conditions.

UTILIS is specialized in the development of innovative and tactical solutions with unequalled rapidity of deployment

UTILIS™

Friday October 21, 2022

09:00 – 10:30 Workshops

Workshops W7 How to prepare my medical backpack?

- Medical backpack for subaquatic operations. *Le Bail A*
- Medical backpack for airborne operations. *Hus G*
- Medical backpack for long pedestrian infiltrations. *Soumille B*
- Tactical CBNR first aid kit. *Queguiner S*

Workshops W8 Tactical and Prolonged Field Care High Fidelity Simulation and Training Platform.

High-Fidelity Simulation training the M.A.R.C.H. algorithm

TACMED SOLUTIONS™

Workshops W9 Management patient in the battlefield.

INMANIBUSMEIS™

The Medical Command and Control System provides the optimal patient care environment for multinational rescue teams with significant gain in patient management.

10:30 – 11:15 Coffee break + Industrial Exhibition

Demonstration of the *French aeromedical SOF – damage control resuscitation and surgery team (SOST)*

11:15 – 12:45 Workshops

Workshops W10 Prolonged field care or far forward resuscitation.

PROMOTEQ AB™

Feasibility and limits of surgery in PFC/PCC - a surgeons view
saving life and limb? What is realistic to achieve?

Workshops W11 EZIO intraosseous.

TELEFLEX™

Workshops W12 Demonstration of the French aeromedical SOF – damage control resuscitation and surgery team (SOST)

14:00 – 15:30 Workshops

Workshops W13 Medics' points of view

- Improvised ground evacuation of SOF casualties. *Quilez T*
- Training and continuing education of French SOF nurses. *Fauchon X*
- Use of telemedicine for remote device. *Merlo T*

Workshops W14 REBOA in an austere setting.

PRYTIME MEDICAL™

Hands-on training and practice of REBOA using the state -of the-art ER-REBOA-
Plus catheter for traumatic non-compressible torso hemorrhage control

Workshops W15 Innovative versatile compact warmers.

CORBEN™

Workshops W13 Medics' points of view

- Improvised ground evacuation of SOF casualties. *Quilez T*
- Training and continuing education of French SOF nurses. *Fauchon X*
- Use of telemedicine for remote device. *Merlo T*
