

WORKSHOP 1

ZOLL®

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 20
14:00 – 15:30

Monitoring of TBI patients and data transmission during prolonged field care

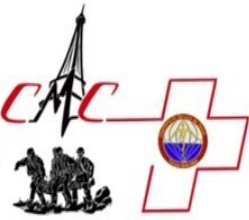

- Blast-related TBI scenario with simulated data toward PropaqMD
- Walkthrough of devices in use
- Live steaming of data
- Hot and cold debriefing using CaseReview
- Hands on

WORKSHOP 2

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 20
14:00 - 15:30

Stop the bleed!

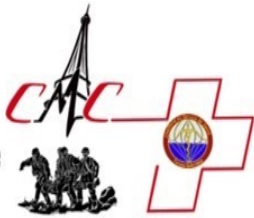

- SAM Medical will be presenting numerous products to control life threatening bleeding.
- The main focus will be set on the SAM XT – Extremity Tourniquet and ChitoSAM – Hemostatic agent.
- Join us for a session including practical hands on exposure to key skills like wound packing and tourniquet drills.
- The session will held in English and led by a former SOF Medic.

WORKSHOP 3

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 20
14:00 – 15:30

Closing the Care Gap Using Technology (From Apps to UAV-CASEVAC)

- Overview of Technology – ‘One Device Multiple Scenarios’
 - Wearables - Soldier Health and Usage Monitoring
 - Low SWaP Vital Sign Monitoring
 - Multilanguage EPR
 - Telemedicine options
 - Single Use Mini AED (300g)
 - Extended Point of Care Devices
 - Case Studies:
 - MTFA Exercise
 - Subterranean CQB Exercise
 - SAR deployment
 - Rapid Triage ACES Project - Autonomous Casualty Evacuation System using heavy lift UAV

(Format – presentation, hands on, discussion on current capability gaps)

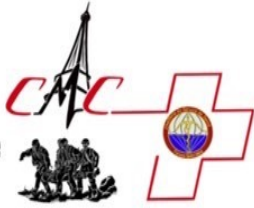

WORKSHOP 4

CELOXTM MEDICAL

MADE TO SAVE LIVES

**Paris Special Operation Forces
Combat Medical Care Conference**

October 20-21, 2022
Paris, France

**October 20
16:45 – 18:15**

Celox Medical Haemorrhage Control Masterclass

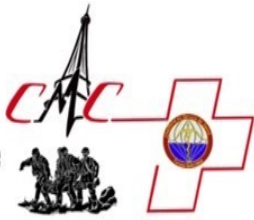

- Practical session demonstrating correct wound packing technique utilising Celox.
- Learning outcomes;
 - Improve wound packing technique
 - Increased awareness of Celox mode of action

WORKSHOP 5

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

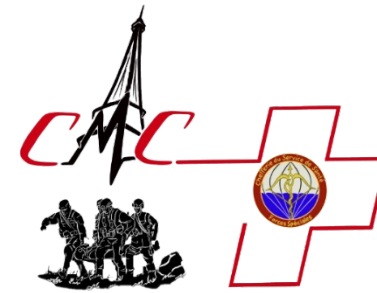

October 20
16:45 – 18:15

HIGH-FIDELITY SURGICAL SIMULATION P4P "PULSE FOR PRACTICE" Simulation chirurgicale haute-fidélité P4P "Pulse for Practice"

- 16:45 – 17:15 - PRESENTATION OF THE PULSE FOR PRACTICE AND THE LIVE & DEBRIEF
Présentation du Pulse For Practice et du Live & Debrief
- 17:15 – 18:00 - PRACTICAL SIMULATION OF SURGERY IN A CONFINED ENVIRONMENT
Simulation pratique de chirurgie en milieu confiné
- 18:00 – 18:15 - EXCHANGE ON THE EVOLUTION AND NEEDS OF SURGICAL SIMULATION IN EXTERNAL MISSIONS
Échange sur l'évolution et les besoins de la simulation chirurgicale en mission extérieure

WORKSHOP 7

Octobre 21
09:00 – 10:30

PREPARE MY MEDICAL BACKPACK FOR

- subaquatic operations
- airborne operations
- long pedestrian infiltrations
- Exclusivity : Tactical CBNR first aid kit

WORKSHOP 8

TACMED
SIMULATION
ELEVATE YOUR RESPONSE™

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 21
09:00 – 10:30

TRAINING THE M.A.R.C.H. ALGORITHM USING HIGH-FIDELITY SIMULATORS

- Discuss the benefits and limitations of utilizing high-fidelity trauma training manikins in training scenarios
 - Train as you fight
 - Repeatable scenarios
 - No degradation of tissue over time
 - Data captured for AAR of treatments and interventions
- Some manikins can go beyond the outside training lanes and be integrated in ACLS training or be used as task-trainers
- Experience a training session utilizing a high-fidelity trauma training manikin
- High fidelity simulation discussion/ demonstration
 - 09:00 - 09:20 Discuss benefits & pitfalls of using medical simulation
 - 09:20 - 09:30 Getting the most out of your simulation equipment
 - 09:30 - 10:30 Hands-on use of manikin to demonstrate capabilities
- <https://tmsimulation.com/>

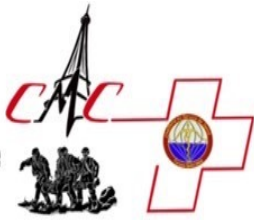

WORKSHOP 9

INMANIBUSMEIS

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 21
09:00 – 10:30

MCCS (Medical Command And Control System)

Providing The Optimal Patient Care Environment For Multinational Rescue Teams With Significant Gain In Patient Management

- Company and system introduction
- Use of Battlefield Medicine including TCCC & MARCH
- Communication and patient data management with NATO Protocols
- Mass Casualty and real user perspective
- ‘No one will be left behind’ – Full patient tracking and flow
 - Patient ID
 - Dynamic tracking
 - Movement of patient

WORKSHOP 10

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

Friday October 21, 2022
11:15 to 12:45
Room

PFC Surgery, Challenges and Considerations

11:15 Lecture

- Can we go beyond the standard TCCC/PFC interventions and procedures?
- The unbroken chain of care and management target
- What challenges do we face when performing more advanced surgical interventions?
- Sterility, hygiene and preoperative care
- Postoperative care and management
- Provider feasibility

12:00 Short break

12:15 Plenary discussion

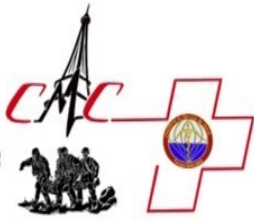

Text in red will be finalized by
Paris SOF CMC organization

WORKSHOP 11

Teleflex®

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 21
11:15 – 12:45

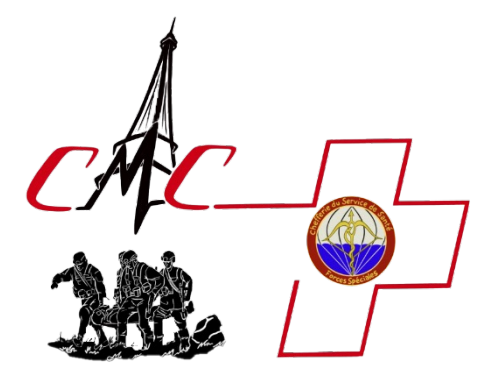

Key Concepts of Intraosseous Vascular Access The Arrow EZ-IO Intraosseous Vascular Access System

Content:

- Indications and contraindications of intraosseous use
- Site selection and landmarking
- Needle selection
- Insertion, use and removal
- Clinical application

The event is attended by practical exercises on realistic simulators. We offer different possibilities to practice by oneself. The educational contents are of highest quality and up-to-date.

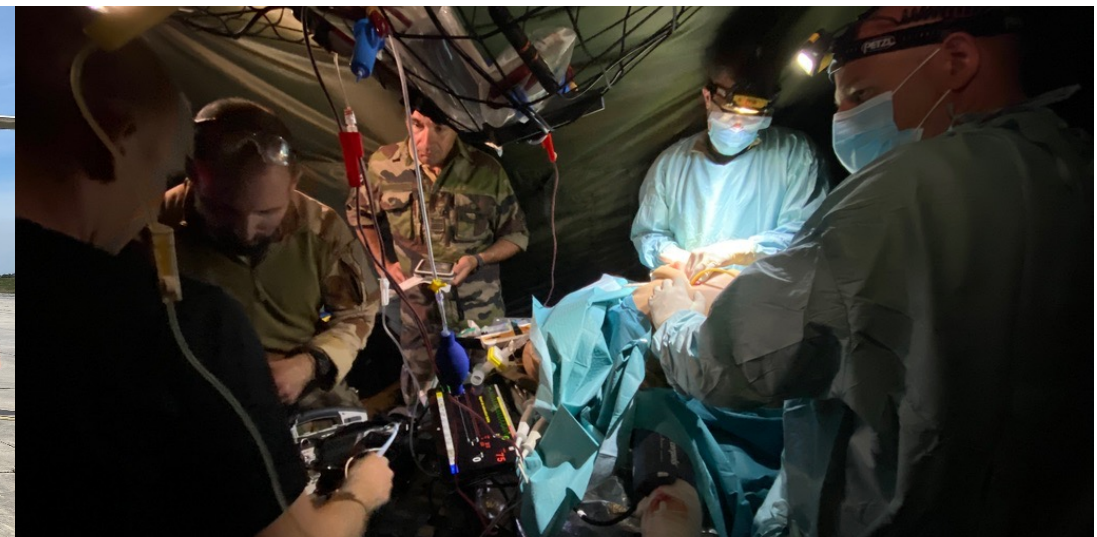

WORKSHOP 12

October 21
11:15 – 12:45

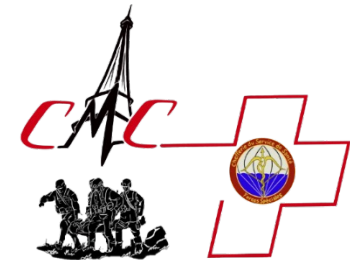

DEPLOYMENT OF THE FRENCH SOST

- In *real time* deployment of the SOF surgical unit
- Interactive and informal discussion area with surgeons, intensivists, nurses

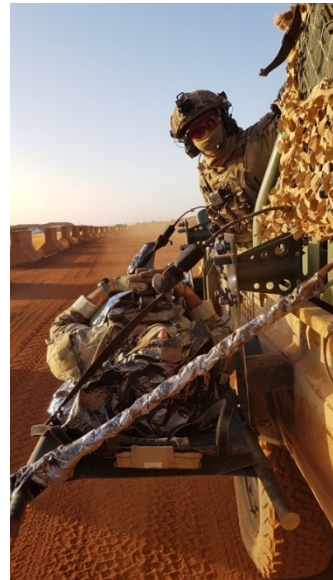

WORKSHOP 13

**October 21
14:00 – 15:30**

MEDIC'S POINTS OF VIEW

- 14:00 – 14:15 - Improvised ground evacuation of SOF casualties.
- 14:15 – 14:30 - Training and continuing education of French SOF nurses.
- 14:30 – 14:45 - Use of telemedicine for remote device.
- 14:45 – 15:00 - Improvised ground evacuation of SOF casualties. (second session)
- 15:00 – 15:15 - Training and continuing education of French SOF nurses. (second session)
- 15:15 – 15:30 - Use of telemedicine for remote device. (second session)

WORKSHOP 14

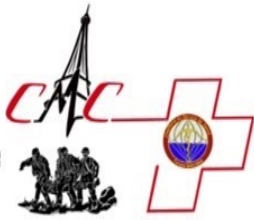

PRYTIME
MEDICAL™

The REBOA Company™

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 21
14:00 – 15:30

REBOA Workshop -Hands-on training and practice of REBOA using the state -of-the-art ER-REBOA-Plus catheter for traumatic non-compressible torso hemorrhage control

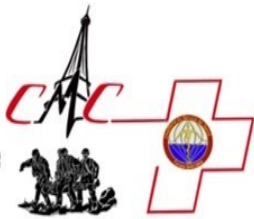

- ER-REBOA is battle-tested, with a track record of successful use by SOF teams to treat life-threatening hemorrhage
- Participants will receive instruction and hands-on training to use the ER-REBOA-PLUS catheter to control bleeding in the abdomen, pelvis and groin
- Expert REBOA users will provide instruction tailored to military providers and teams treating combat casualties
- Participants will gain familiarity with device and procedure best practices to enable REBOA programs in the deployed environment
- No prior REBOA experience is required
- 14:00-14:20 – Instruction and familiarization
- 14:20-14:30 – REBOA Catheter device familiarizaion
- 14:30-14:45 – Hands-on REBOA use in simulator
- 14:45- 15:15 –Scenario-based team training and practice
- 15:15-15:30 – Questions, trouble-shooting and scheduling of unit-based training

WORKSHOP 15

Paris Special Operation Forces
Combat Medical Care Conference

October 20-21, 2022
Paris, France

October 21
14:00 – 15:30

Demonstration of the innovative versatile compact warmer, Warrior Lite

- Presentation of the product and its technical features
- Versatility use
- Intermittent flows
- Cost of ownership
- Feedback

Handling the Warrior Lite in complete confidence

- 14:00 – 14:20 - The use of Warrior Lite in various cases
- 14:20 – 14:40 - How to use the Warrior Lite for intermittent flows
- 14:40 – 15:20 - Manipulation of the product by attendees
- 15:20 – 15:30 - Questions
